

Making a bag from a bag roll with a vacuum sealer

1. Use scissors to cut a bag from the bag rolls to the desired length (Pic.1)
2. Put one end of the bag on top of the sealing strip, but not enter the vacuum chamber (Pic.2)
3. Close the upper lid and press tightly until it is clicked in place on both sides of release buttons (Pic.3)
4. Press Seal button to start sealing the bag (Pic.4)
5. Press the release buttons to open the cover and take the bag out of the machine, one end of the bag is sealed (Pic.5)

Note: This package (Model No.: GVBR28) includes two bag rolls. The vacuum sealer has to be purchased separately.
